Please release all of my correspondence from Dana Point to me for my lawyers review. This should include violations and fines etc. I feel that I have been wrongly fined \$250.00 for feeding a feral colony in MOUNT PROSPECT. I also have been wrongly fined \$250.00 for an ALLEGED smell that does not exist. I have been bullied by the board numerous times by letters, fines and at the meeting. It seems to me that Rochelle Norwell has numerous issues living next to me and has complained about various things about me to you and that you have taken her side. This is just another attempt to intimidate me. Not only are these fines unreasonable - they are voluminous. I sent you a very respectable note in response. You refuse to arbitrate with me and play hard ball. Clearly you are biased with Ms. Norwell. I have spoke to a lawyer at the states attorneys office named Judy Pond and she advised me that I do in fact have a strong case. I will be consulting with a local attorney and need my records from you. I will be seeking a monetary remedy from the Association as well as Ms. Norwell. This has gone on long enough.
