**Service Request:**  
Mrs. came into office to state that she was having a few problems. First: she would like to shut off water in order to change a valve in the bathroom, second the bathroom fan cover does not fit properly and would like to know if we know where to get one as she has looked everywhere. Third- The lock on her door is very hard to put key thru and hard to open.

**Work Performed:**  
Juan advised the homeowner that these problems would be her responsibility to attend to.

Please paint front office space on Thursday morning as we will be out of the office until 1 pm. Can you also put the picture of the property that is behind the desk on the center of small wall and hang the clock that is behind the door in the center of the wall behind the desk where the picture was. Also, can you change out the posting boards. The one in the office we would like to put in the hallway by the entry door and the cork one on the wall in the hallway in place of it in the office. Can you also secure the soffitt in Lisettes office. The corner left side is loose. Thank you so very much.
