You have changed your filing status for 2013.

Based on our annual review, you were assigned to the annual payment and return schedule for 2013. However, we have received a quarterly return, Form IL-941, Illinois Quarterly Withholding Income Tax Return, from you. As a result, you must begin making monthly payments and file Form IL-941 each quarter. See Publication 131, Withholding Income Tax Payment and Filing Requirements, and refer to the monthly payment and quarterly return schedule.

Note: You must continue using the monthly payment and quarterly return schedule throughout the year or you may be subject to penalties. If you exceed \$12,000 in withholding during any quarter in 2013, you must begin using the semi-weekly payment and quarterly return schedule for the following quarter, the remainder of the year, and the subsequent year.

We encourage you to use our electronic filing and payment program, **WebFile and Pay**. It is easy, free, and no software is required. Visit our Web site at tax.illinois.gov to discover **WebFile and Pay** and other options.

To obtain any forms or if you have questions, visit our web site at tax.illinois.gov or call us weekdays between 8:00 a.m. and 5:00 p.m. at the telephone number listed above.
