

IMPORTANT
PLEASE READ BEFORE FILLING OUT APPLICATION

Application must be signed by the Supervising Electrician.

Electrician must provide copy of registration with each submittal.

A permit must be obtained for all installations or alterations of electric equipment.

A permit must be obtained before the work is started.

Permits will be issued to electrical contractors only when they are registered in conformity with the ordinances of the Village of Arlington Heights.

Application for the permit must give the location by street and number. Locations on corners will not be accepted. The street number must be correct.

A person doing work at any other location than that specified in the permit is in violation of the Municipal Code and the records of the department are thereby confused and the furnishing of permit delayed.

The inspection fee must be paid before a permit is issued. As this fee is based on the apparatus installed, a correct statement of such apparatus must appear on the application.

The permit issued on this application will authorize only work here applied for. If other work is done, it must be covered by additional permits.

Contractor shall not make connection to existing wiring where same is defective. In all cases the contractor installing the apparatus, in addition to existing load, shall be held responsible for any overload of service, branch mains or circuits.

No current shall be used on the apparatus installed under authority of a permit without approval of electrical department.

When this installation is ready for current, a request for current must be made.
