I want to inform you about a woman at 1405 Central who has feral cats on her patio who just had babies. I am not trying to make trouble or have her get a fine but she MUST now take care of them and get the all spayed and neutered per Cook County ordinance. The feral feline project and one of their team members will help her with this process . feralfelineproject.org She is on the first floor A wing facing East . It is the second or third patio I think third from main entrance. We had to put one of my favorite ferals to sleep today due to infection. If that colony of cats is not neuter/spayed ASAP we are looking at disaster. I think there are 2 adult females, 5 kittens and one adult male. Serena is available to consult if needed....
Thank YOU
