Hi Lisette,

I had to go to page two because I could not get that brown back ground to go away.

Any how the ferral problem is not going away but I definitely do not feed on Dana point property. I am aware of several other residents who do feed on their patio. Not to be nasty or combative unless someone has PROOF of me feeding on Dana Point property it is simply here say. Proof would be a photo or video. Last year Angie Simic and my neighbor Rochelle Norwell CLAIMED they SAW me feeding a skunk on my patio and I had to go to a hearing and was fined. It was a complete set up. Two against one complete lies I trust noone here especially Angie. Lies can destroy people. Just a little back ground on Rochelle. She has complained about me from day one literally when her ex husband tried kicking in my door. She complains about every single little thing. She obviously has a perfect life that she needs to complain about me constantly. Last year she called the police on me. He was not stupid and knew what was going on. He told her "It takes two to tango." So Rochelle complains about me on a regular basis its fact. Also be aware that her and Angie Simic are friends.

So in regards to the pet smell on Tuesday the 23rd I can not be sure what the smell was or if it was DEFINITELY coming from my unit. I use bleach to disinfect the cat box area and clean it every other day. I do burn incense because I like the way it smells through out my unit and hallways. Maybe someone had walked by at that moment and my cat had just urinated. I do not know. Maybe the smell was coming from a skunk in front. When I got home I did not smell any thing except the poop and it was not extreme. I will make every effort to do the litter box every single day when I get home from work. I do know that the asians at the end of the hall cook food that makes me nauseaus and it smells up the hall way and lobby. But thats life when living in a multi -unit complex. A few months back maintenance was working on pipes in the ceiling just outside my unit and Sue from the 3rd floor came down and said to me , "A bad smell was coming out of your unit." None-the-less my dog does poop and pee on the patio or grass but I clean it up. My dog and cat do some times sit on the patio but the pets are attended . I understand that pets are not allowed to roam at large and I do not allow my pets to. I know that animal control may be called . Remember the maintenance men were fixing my wall a couple months back and did not smell litter box. That had to be an isolated incident or pipe smell. I assure you I would not live in stink.

I am fairly sure I addressed all of the current complaints. I refute every complaint. None of the complaints have been proven. I did not get a hearing request form BUT DO NOT WORRY I DO NOT NEED ONE. This letter can serve as the same. I have also included a couple solutions to give thought to!

Between you and me I just do not understand people. Rochelle and her constant complaining. Someone smelled pee. Ferral cats. OMG we are situated by so much landscape what do people think is going to happen? We do not live in a bubble. I have real problems My daughter has severe epilepsy and can not get proper health care because she is on public aid and many companies and hospitals no longer take public aid. I have been laid off 3 times in three years and have no health insurance. Now I earn less than half the amount of money I used to. I am in bankruptcy and just got out of foreclosure. These silly complaints and lies seem so small in the whole scheme of things to me.

Any how I understand the complaints and abide by the rules. Thank You for your time.
Debi
