SHRUB/TREE INSECT CONTROL	
POLICE/DEBRIS REMOVAL	<b>ongoing</b>

### COMMENTS:

#### ***This Week:***

- 1) Worked with supervisor and crew; checked in with Lisette for updates or special needs
- 2) Regular weekly turf mowing and trimming- turf looks great! Very happy!
- 3) Soft edged most walks, tree rings and curb edges w/ trimmer
- 4) Hand weeded flower beds and entry beds at all entries
- 5) Trash and debris clean up where needed
- 6) Sprayed weed post emergent in open mulch and gravel areas
- 7) Begin pruning; Partial front wall bed and parking lots; reducing sight lines priority  
Also worked on soft hand pruning around building entries
- 8) Annuals were planted at front wall bed; need watering 4-5 times/wk depending on rain
- 9) Removed all straw matting as requested; Majority of seedlings filling in nicely
- 10) Completed mulching Property Enhancements at front sign bed

#### **OTHER:**

- 1) All other summer annuals are doing well; Watering is sufficient in all beds and pots.  
Flowers will begin to grow taller and fill in when there is more heat. Temps are forecasted to remain cool for the next 10 days.
- 2) Regarding the Property Enhancement for the Junipers: Still waiting on the vendor to have the proper plant. Rescheduled to be planted next week
- 3) There are a few areas where there are exposed electrical wiring that runs through turf areas to reach light poles; we try to avoid them, however, can't assume responsibility if cut

#### **FUTURE:**

- 1) Josh is working on all Board Meeting requests
- 2) Round 2 Turf Spray and Fertilization is scheduled to begin last week of June/first week of July, rain pending
- 3) Round 1 PRUNING: Began this week and will continue through week of 07/01; to be complete by 07/05

**Please call us if you have any special needs or concerns in the upcoming weeks.**

*IF YOU HAVE ANY QUESTIONS OR CONCERNS, PLEASE ADVISE SO WE CAN DISCUSS.*
