**2011 FIRE PUMP TEST PROPOSAL**

DANA POINT CONDOMINIUMS  
1519 E. CENTRAL RD.  
ARLINGTON HEIGHTS, IL 60005

ATTN: JANICE COSTA

We will notify the Village Fire Prevention Bureau of your fire pump test date & time.  
We will also call you a day or two before the test to remind you.

We will then provide the labor and equipment to perform a flow test of your fire pump.  
You will be provided with a typed copy of the results showing readings of voltage,  
amperage, speed, suction pressure, discharge pressure, net pressure, pitot readings and  
flow rates at churn, 100% of capacity and 150% capacity. These readings will be  
accumulated and entered into our field computer by a trained technician using calibrated  
instruments. You will also be told your start and stop settings for all pumps.  
The timer will be checked, the packing will be adjusted and the relief valve will be  
adjusted. No damage will be done to your roof. There is no extra charge for one roof  
flow.

This proposal reflects the testing of five fire pumps at \$500.00 each.

THE COST OF THE FIRE PUMP TEST IS..... \$ 2,500.00

THE VILLAGE PERMIT FEE IS..... \$ N/A

THEREFORE THE TOTAL COST WILL BE..... \$ 2,500.00

Any work or material that is needed beyond what has been described in this proposal will  
be at an additional cost. We will notify you before proceeding.

Sales Authorization: *Dorothy A. Rea* (Dorothy A. Rea ) Date 1-4-11
