 - 2) Regular weekly turf mowing and trimming- turf looks dry
 - 3) Soft edged most walks, tree rings and curb edges w/ trimmer
 - 4) Hand weeded flower beds and entry beds at all entries
 - 5) Trash and debris clean up where needed
 - 6) Sprayed weed post emergent in open mulch and gravel areas (partial)
 - 7) Begin Round 2 pruning; Partial parking lots- topping extravagant growth
Round 2 pruning will be ongoing through July & August; beginning with
 - 8) Round 2 cultivating in progress. All entries, and tree rings along the main drive, at the fronts of the property are complete. Begin backs of buildings, starting with 1605.
 - 9) Begin perennial care: Dead heading Monarda at all entry beds where applicable

OTHER:

- 1) Most summer annuals are doing ok, looking dry
- 2) The 3 Juniper that were planted in June along the west side of 1505 walk, are dead.
Yellowed foliage and very dry root base indicate lack of water. They were removed.
- 3) Dead yews were removed and 5 new yews were planted and watered in 07/24 at 1605- 1 yew on east side. 1615- 4 yews on west side. These need to be watered 1-2 times/wk. Per property enhancement request

FUTURE:

- 1) Turf area where fireworks exploded: To be completed upon seed/soil empty tree rings property enhancement work. Suggested turf work be done closer to fall
