Dana Point Condominium Association
Notes to Financial Statements
December 31, 2012

Note (1) Summary of Significant Accounting Policies

A. Nature of Operations

Dana Point Condominium Association (the "Association") was incorporated under the laws of Illinois as a not-for-profit corporation on November 24, 1980 for the purpose of operating and maintaining the property known as Dana Point Condominium Association. The Association is governed by the rules and regulations as dictated by its condominium declaration as filed in accordance with the Illinois Condominium Property Act. The Association consists of 499 residential units located in Arlington Heights, Illinois.

B. Assessments Receivable

Association members are subject to monthly assessments to provide funds for the Association's operating expenses, future capital acquisitions and major repairs and replacements. Assessments receivable at the balance sheet date represent assessments due from unit owners. The Association's policy is to retain legal counsel and place liens on the properties of unit owners whose assessments are considered delinquent and to provide for an allowance for doubtful accounts in an amount determined on a review of delinquent accounts. At December 31, 2012, the Association had assessments receivable of \$42,596 and \$2,094 for the operating and replacement funds, respectively. It is the opinion of the Board of Directors that the Association may not prevail against all homeowners with delinquent assessments, and accordingly, allowances for doubtful accounts in the amount of \$19,000 and \$2,094 are deemed necessary for the operating and replacement funds, respectively, as of December 31, 2012.

C. Fund Accounting

The Association's governing documents provide certain guidelines for governing its financial activities. To ensure observance of limitations and restrictions on the use of financial resources, the Association maintains its accounts using fund accounting. Financial resources are classified for accounting and reporting purposes in the following funds established according to their nature and purposes:

Operating Fund – This Fund is used to account for financial resources available for the general operations of the Association. Disbursements from the operating fund are generally at the discretion of the Board of Directors and/or the property manager.

Replacement Fund – This Fund is used to accumulate financial resources designated for future major repairs and replacements. Disbursements from the replacement fund generally may be made only for the purposes designated by the Board of Directors.

Dana Point Condominium Association

Notes to Financial Statements

December 31, 2012

Note (1) Summary of Significant Accounting Policies - Continued

D. Cash Flows

Cash equivalents are all highly liquid investments with a maturity of three months or less when purchased.

Cash flows from operating activities for the year ended December 31, 2012 reflect payments of \$3,097 for interest and \$3,988 for income taxes.

E. Management

The Association entered into a management agreement with Property Specialists Inc., Rolling Meadows, Illinois, which requires the management company to be responsible for the day-to-day administration of the Association. Management fees totaled \$142,593 for the year ended December 31, 2012.

Subsequent to year end, the Association terminated its agreement with Property Specialists and entered into a contract with Lieberman Management Services.

F. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. While actual results may differ from those estimates, management does not expect the differences, if any, to have a material effect on the financial statements.

G. Income Taxes

The Association elects on a yearly basis whether to be taxed as a regular corporation or a tax exempt homeowners' association as permitted by Internal Revenue Code Section 528. The Association elected to be taxed under Section 528 for the year ended December 31, 2012. Under Section 528, taxable income exists only to the extent that certain nonexempt function income, such as interest income, exceeds the expenses associated with the production of that income. The Association is taxed on this net nonexempt function income at a flat rate of 30%. Exempt function income, which consists primarily of members assessments, is not taxable. The Association had a Federal income tax liability of \$2,180 for the year ended December 31, 2012.

The Association accounts for any potential interest or penalties related to the possible future liabilities for unrecognized income tax benefits as interest/other expense. The Association is no longer subject to examination by tax authorities for federal, state or local income taxes for periods before 2009.

Dana Point Condominium Association
Notes to Financial Statements
December 31, 2012

Note (1) Summary of Significant Accounting Policies - Continued

H. Property and Equipment

Real property and common areas acquired from the developer and related improvements to such property are not recorded in the Association's financial statements because they are owned by the individual unit owners in common and not by the Association. Common areas are restricted to use by Association members, their tenants, and guests.

Property and equipment are depreciated over their estimated useful lives using the straight-line method. The estimated useful life is as follows:

	Life in Years
Equipment	5

Total depreciation expense for the year ended December 31, 2012 was \$2,453.

The Association reviews the recoverability of long-lived assets when circumstances indicate that the carrying amount may not be recoverable. The carrying amount of assets held and used is generally not recoverable if it exceeds the undiscounted sum of cash flows expected to result from the use and eventual disposition of the asset, or for assets held for sale, if it exceeds market value. The Association records impairment when the carrying value exceeds fair market value. There were no impairment indicators for the year ended December 31, 2012.

I. Cash Balances in Excess of Insured Amounts

The Association maintains its cash and investments in accounts which, at times may exceed insured limits. The Association has not experienced any losses due to these limits.

J. Subsequent Events

The Association evaluated all significant events or transactions that occurred through **XXXXX, 2013**, the date the financial statements were available to be issued.

Dana Point Condominium Association
Notes to Financial Statements
December 31, 2012

Note (2) Special Assessments

In November 2007, the Association passed a \$2,225,000 special assessment to fund various capital expenditures. Beginning January 1, 2008, unit owners began to pay in thirty-six equal consecutive monthly installments. As of December 31, 2012, the Association had a special assessments receivable balance of \$2,094 which has been included in the replacement fund allowance for doubtful accounts.

Note (3) Rental Income

The Association owns five units that it is leasing annually to unrelated parties. The rental income is between \$1,000 and \$1,205 per month. Total rental income for the year ended December 31, 2012 was \$66,360.

Note (4) Line of Credit

On November 1, 2011, the Association entered into a one year line of credit with Glenview State Bank not to exceed \$600,000 at an interest rate of prime plus .25% (prime rate at December 31, 2012 was 3.25%). The line of credit was extended for one more year until November 1, 2013 at which time it will convert to a 32 month loan requiring monthly principal and interest payments. The line of credit is secured by all Association assets including an assignment of homeowner assessments. The balance at December 31, 2012 is \$350,000.

Note (5) Future Major Repairs and Replacements

The Association's governing documents require that funds be accumulated for future major repairs and replacements. Accumulated funds are held in separate accounts and are generally not available for expenditures for normal operations.

An independent consulting company completed a repairs and replacement reserve study in 2010 to estimate the remaining useful lives and the replacement costs of the components of common property. The table included in supplementary information on future major repairs and replacements is based on the study.

The Board is funding for major repairs and replacements over the estimated useful lives of the components based on the study's estimates of current replacement costs, considering amounts previously accumulated in the replacement fund. Actual expenditures, however, and investment income may vary from the estimated amounts and the variations may be material. Therefore, amounts accumulated in the replacement fund may not be adequate to meet future needs. If additional funds are needed, the Board of Directors has the right to increase regular assessments, or levy special assessments, or it may delay major repairs and replacements until funds are available, or borrow funds.

Dana Point Condominium Association
Schedule of Future Major Repairs and Replacements
For the Years Ended December 31, 2012

Kipcon Great Lakes conducted a study in July 2010, to estimate the remaining useful lives and the replacement costs of the components of common property. The estimates were based on 2010 replacement costs. Estimated current replacement costs have not been revised since the date of the study and do not take into account the effects of inflation between the date of the study and the date that the components will require repair or replacement.

The following information is based on the study and presents significant information about the components of common property.

Components	Estimated Remaining Useful Lives (Years)	Estimated Current Replacement Costs
Sitework	1-29	\$ 3,029,235
Waterproofing	3-28	700,275
Interior finishes	3-21	1,288,808
