PRUNING (ONGOING AS/NEEDED)	<input type="checkbox"/>	<input checked="" type="checkbox"/>
SPRING CLEAN UP	<input type="checkbox"/>	<input type="checkbox"/>
FALL CLEAN UP	<input type="checkbox"/>	<input type="checkbox"/>
PERENNIAL CARE - ONGOING THROUGH THE END OF SEASON	<input type="checkbox"/>	<input checked="" type="checkbox"/>
TREE REMOVALS - SCHEDULED FOR 08/19	<input type="checkbox"/>	<input type="checkbox"/>

COMMENTS

*WATERING: ALL PERENNIAL BEDS AT BLDG ENTRIES WERE CHECKED.

SURFACE SOIL IS DRY, BUT APPROX. ONE INCH BELOW, SOIL IS MOIST AND SUFFICIENTLY DAMP FOR THE ROOTS. A DEEP ROOT SOAK, 2 TIMES A WEEK, (WATERING AT THE BASE OF THE PLANT - NOT ON LEAVES) IS SUFFICIENT... IF TEMPS BECOME UP IN 90'S W/ NO RAIN FOR AN EXTENDED AMOUNT OF TIME, MAY NEED TO UP WATERING TO 3 DAYS. LEAF MONITORING IS BEST - DRY PLANTS LEAVES WILL CURL OR GET BROWNED TIPS, BUT WILL BOUNCE BACK + RESPOND TO A SOAKING.

* MANY PERENNIALS' LEAVES WILL TURN YELLOW + WILT AT THIS TIME OF YEAR - FOR EX: DAY LILY, HOSTA, CAT MINT. SPENT LEAVES CAN BE CUT BACK AND WILL GROW AGAIN, MANY TIMES W/IN 2-3 WEEKS. I AM RECOMMENDING CUTTING BACK THE MONARDA, AS MOST ALL OF IT HAS MILDEW ON THE OLD LEAVES.
